 EUROPEAN REGISTERED MODEL

CHARACTERISTICS

Material: Reinforced steel sheet bin with holes made by laser. It is supported by means of a solid structure and a triangular anchorage base with holes for its fixing to the floor.

Finish: It is treated with **feffus** treatment, a protector process which guarantees a high resistance to the rust conforming to the spray salt fog test. RAL 9006 grey colour painted (oven technique).

Anchorage: Three M8 expanding bolts for anchoring to the ground.
