CHARACTERISTICS

REFERENCE	A	B	H	SECURITY AREA	CLIMBING SURFACE	RECOMMENDED RUSER AGE	C
BULNPE	2150	1000	2300	31m ²	depending on de piece	From 3 years old	2000
Optional				1000 x 500 tile			

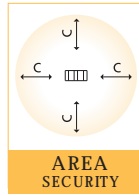

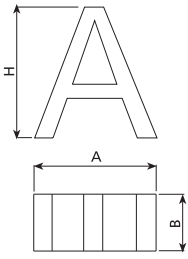

Complies with all the safety requirements of the European standard CEN/TC 136, UNE-EN 12572. The quality of the products is guaranteed by ISO 9001:2000 standard.

- Climbing panels: Panel made of layered polyester fibre. Plain surface in a single piece.
- Metal structure: Interior of the piece in metal structure with cold-formed rectangular section steel tubes with IPN and UPN normalised profiles. These structures ara primer coated to avoid rusting.
- Holds: Made of polyester resin with mineral filling (silica) and colorants. Several sizes and colours with funny animal shapes and objects.
- Nuts and bolts: Fixing of structures: zinc-coated bolts.
Fixing of holds: stainless steel bolts with anti-theft system.
- Fixing: Fixed to floor by means of a concrete footing with expansion blocks (not included in the price).
Rubber or sand pavement is recommended, depending on legal requirements.
